

TED Marine
Beyond the horizon of comfort

EXCEPTIONAL SLEEP WHEREVER YOU SAIL

Premium Yacht Mattresses & Bespoke Marine Sleep Solutions

The Ultimate Sanctuary at Sea – Because True Luxury Knows No Compromise

A yacht is a masterpiece of engineering, a symbol of freedom, and your personal escape from the ordinary. Yet, the true measure of a voyage is not defined solely by the horizon you chase, but by how deeply you rest when the anchor drops. When the day's journey pauses, your cabin should transform into an absolute sanctuary of peace.

At TED Marine, we believe that being far from land should never mean compromising on how you sleep. Drawing on over 30 years of master craftsmanship, advanced marine-grade technologies, and sustainable innovation, we bridge the gap between uncompromising home comfort and the prestigious ambiance of a floating boutique retreat.

Engineered for the Sea, Tailored to You
Every model in our collection—from the vibration-dampening natural coconut cores and adaptive pocket springs to the advanced 3D AirMesh climate management—is meticulously built to absorb the ocean's rhythm, regulate temperature, and protect against marine humidity.

More importantly, no space on board is too intricate. Whether your vessel features custom angled berths, irregular curves, or compact cabins, our bespoke manufacturing capabilities allow us to craft a flawless sleep system for every unique geometry and form.

You have invested in the vessel of your dreams.
Complete the experience with a mattress that turns every cabin into your personal haven.

TED Marine. Bringing the absolute comfort of home into your own waters, wherever you sail.

CRAFTED AROUND YOU

Every yacht is unique.
Every space has its own character.
And every detail matters.

Our bespoke mattresses are designed to fit the individual dimensions, shapes and requirements of each cabin, bringing together precision, comfort and thoughtful craftsmanship.

Because exceptional comfort should never be compromised by the shape of a space.

A Legacy of Comfort Since 1994

The TED brand does not just offer products – we offer harmony, balance and tranquillity. Back in 1994, TED was designed as a brand based on 3 main principles - being innovative, sound and inspired, which still guide us today. Being innovative is not only a way of thinking, it is actually part of our DNA. Our approach to innovation is holistic – from the technology and production processes, through designing, marketing and customer service. Being sound reflects our belief that even the smallest detail matters. What inspires us is the opportunity to help our customers spend 1/3 of their lives while feeling more comfortable and relaxed. The company is entirely family owned and the brand name incorporates the initials of the founders – Todor, Elin and Dimitar.

QUALITY BEYOND EXPECTATIONS

Excellence Without Compromise

Quality is at the heart of everything we create.

From carefully selected materials to precision manufacturing and rigorous testing, every detail reflects our dedication to exceptional standards.

Supported by internationally recognised certifications and decades of expertise, TED Marine brings confidence, reliability and lasting comfort to life at sea.

For the forth consecutive year, Bulgarian customers rated TED as the best quality brand in the “MATTRESSES” category.

Certification programme for the environment, health and safety properties of polyurethane foam used in bedding furniture

TED BED EAD is a member of the European Bedding Industries’ Association

TED BED EAD is certified by ISO 9001 and ISO 14001 Quality and Environmental Management System approved by LRQA

NO SHAPE TOO COMPLEX.
NO DETAIL TOO SMALL.

From unconventional curves to the most intricate cabin layouts,
TED Marine creates bespoke mattresses with exceptional precision.
Combining carefully selected materials, advanced manufacturing technologies
and over three decades of expertise, we deliver outstanding ergonomic support
and refined comfort, perfectly adapted to life on board.

Exceptional craftsmanship.

Tailored to every project.

Beyond Standard Shapes

Every curve considered. Every dimension perfected

THE SCIENCE OF COMFORT

Our expertise and flexible manufacturing approach allow us to create tailored latex solutions, combining natural elasticity, responsive support and exceptional comfort, even for the most demanding yacht interiors.

Latex Technology

Precision-engineered spring systems, manufactured in-house, provide reliable support, balanced weight distribution and lasting comfort, bringing proven sleep technology to the unique requirements of life on board.

Spring Technology

Advanced foam technologies and precision cutting allow us to create complex shapes and customised mattress cores, delivering ergonomic support and exceptional comfort in every space.

Foam Technology

PREMIUM

Ozone COCO

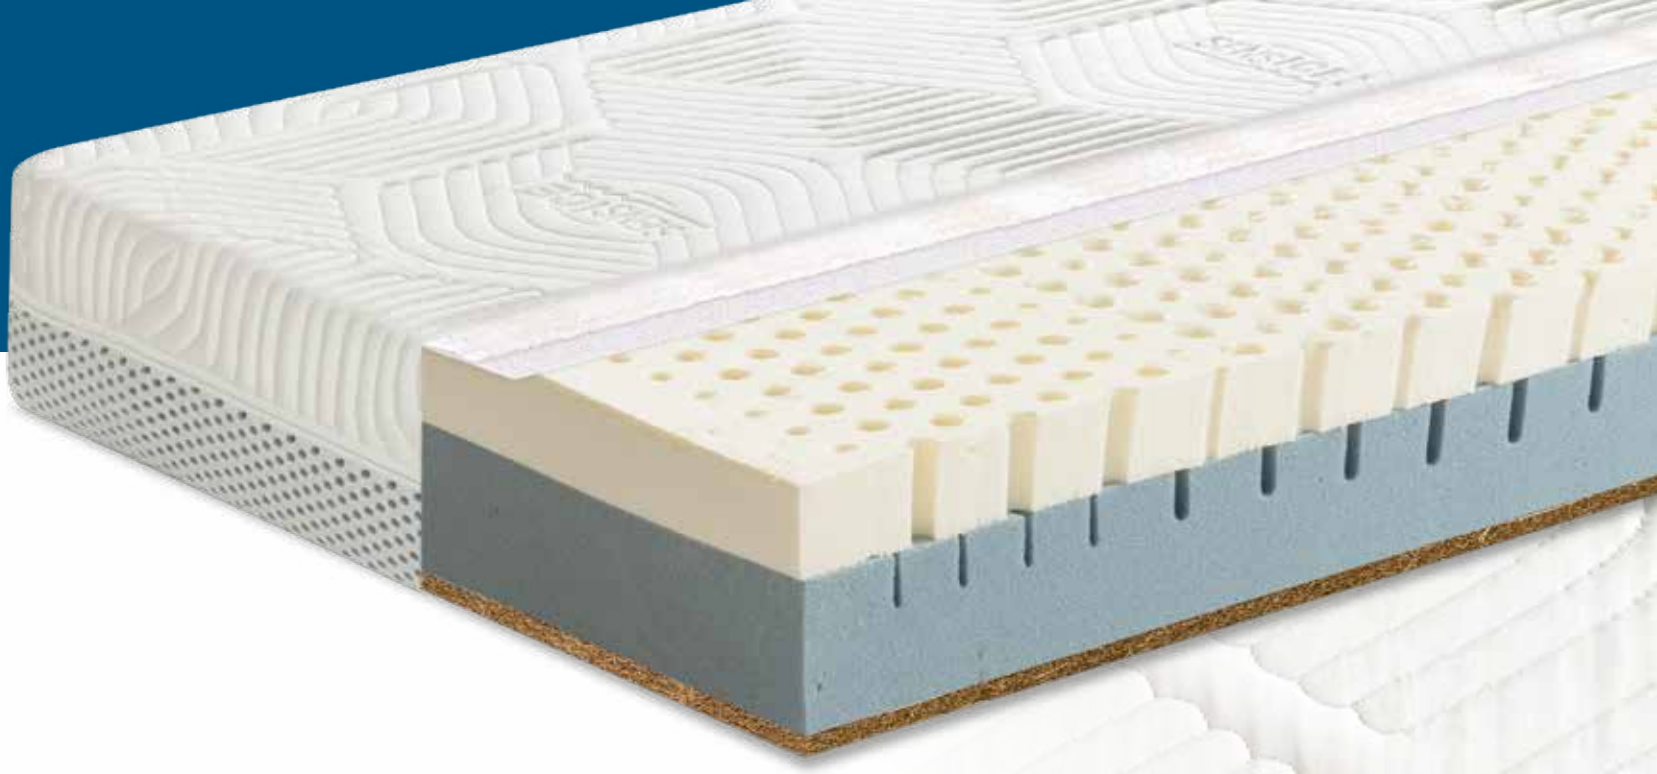

Designed for exceptional comfort at sea, Ozone COCO Premium combines carefully selected materials with advanced sleep technology.

The upper side of the mattress is finished with ultra-elastic latex layer which gently adapts to the body's contours eliminating any pressure points during sleep. At the same time the high-resilience foam core provides reliable orthopedic support and stability.

A natural coconut fibre layer adds firmness and structural balance, completing a thoughtfully engineered mattress designed for restful sleep.

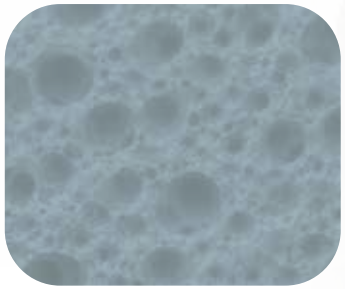

A refined combination of softness, support and natural materials, bringing lasting comfort to every journey.

NATURAL PINCORE
LATEX FOAM

Natural pincore latex foam provides exceptional elasticity, responsive ergonomic support and excellent breathability, ensuring lasting comfort and a fresh sleeping environment.

ORTHOPEDIC SUPPORT
HIGH RESILIENCE (HR) FOAM

Specially profiled HR foam provides ergonomic support and exceptional sleeping comfort.

NATURAL
COCONUT FIBER

Natural coconut fibers provide enhanced firmness, stability and breathability, promoting optimal air circulation and long-lasting sleeping comfort.

10-Year Warranty

Height: ≈ 16 (±1) cm; options for different heights

SIGNATURE

Ozone COCO

Ozone COCO Signiture combines intelligent spring-support system with the natural benefits of coconut fibre to deliver an exceptional sleeping experience on board.

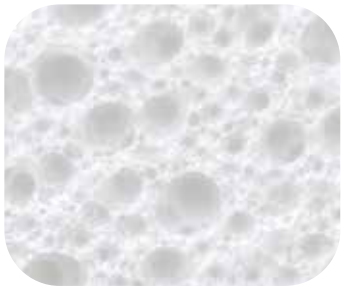

At its heart, a system of zoned pocket springs provides responsive, individually tailored support, adapting to the body's natural contours while minimizing motion transfer. Carefully selected comfort layers create a balanced sleeping surface.

The natural coconut fibre layer adds firmness, structural stability and breathability, while high-resilience foam ensures lasting support and durability.

INTELLIGENT MULTI-POCKET SPRING CORE

Individually tailored support which minimizes motion transfer, ensuraning undisturbed sleep all night long.

ORTHOPEDIC SUPPORT HIGH RESILIENCE (HR) FOAM

HR foam gently adapts to the body's contours, providing ergonomic support and balanced sleep surface.

NATURAL COCONUT FIBER

Natural coconut fibers provide enhanced firmness, stability and breathability, promoting optimal air circulation and long-lasting sleeping comfort.

10-Year Warranty

Height: ≈ 16 (±1) cm; options for different heights

NAUTIC

Ozone COCO

Ozone COCO Nautic mattress delivers a harmonious balance of softness, support and durability.

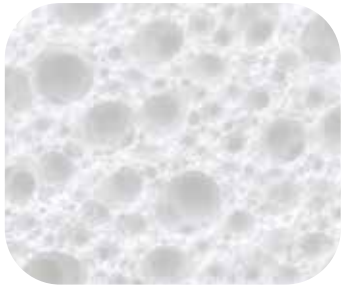

The zoned and profiled Soft foam gently adapts to the body's natural contours, providing relaxing sleep experience. Beneath it, a high-resilience (HR) foam core delivers stable support and long-lasting performance.

A layer of natural coconut fibre reinforces the mattress structure, adding firmness and breathability while promoting better air circulation throughout the sleeping surface.

ZONED AND PROFILED SUPER SOFT FOAM

Specially profiled super-soft foam gently adapts to the body's contours, providing enhanced pressure relief, ergonomic support and exceptional sleeping comfort.

ORTHOPEDIC SUPPORT HIGH RESILIENCE (HR) FOAM

Specially profiled HR foam provides ergonomic support and exceptional sleeping comfort.

NATURAL COCONUT FIBER

Natural coconut fibers provide enhanced firmness, stability and breathability, promoting optimal air circulation and long-lasting sleeping comfort.

10-Year Warranty

Height: ≈ 16 (±1) cm; options for different heights

Every Detail, Uniquely Yours

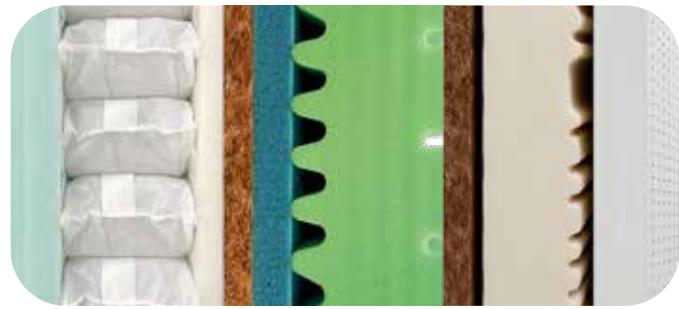

BEYOND STANDARD SHAPES

Individually crafted mattresses, precisely tailored to the unique dimensions and contours of every yacht cabin.

DESIGNED AROUND YOUR STYLE

Complete freedom to combine your preferred mattress core with exquisite fabrics from our extensive upholstery collection.

THE FOUNDATION OF COMFORT

Premium slatted bases engineered to enhance ergonomic support, airflow and mattress longevity.

THE PERFECT FINISHING TOUCH

Made-to-measure mattress protectors and fine bed linens, thoughtfully tailored for a flawless fit, whatever the shape.

TWO-PART REMOVABLE & WASHABLE COVER

Featuring a practical zipper system for easy removal, separate washing and effortless maintenance.

PREMIUM FABRIC WITH A COOLING EFFECT & ELEGANT DESIGN

Premium fabric with a cooling effect, combining elegant design, softness and exceptional comfort.

3D BREATHABLE MESH

Advanced 3D mesh structure promotes continuous airflow, enhancing ventilation and maintaining a fresh, comfortable sleeping environment.
